

# GET LICENSED, STAY LICENSED!

## STREAMLINED BUSINESS LICENSING WITH LICENSELOGIX

In today's business landscape, regulation and compliance loom larger than ever. Taming and managing compliance obligations occupy an increasingly large space in any company's day-to-day operations. Business licensing obligations in particular are more frequent and burdensome, while in-house legal and compliance teams are ever more stretched. The result is inefficiency and unnecessary risk.

LicenseLogix was founded to carry the weight of the business licensing burden in an efficient, streamlined, and cost-effective manner. It's what we do best, and it frees our clients to do what they do best: grow their core business. Join the thousands of companies who have chosen to grow by outsourcing business license compliance to LicenseLogix.

## COMPLIANCE IS CRITICAL

**WE TAKE THE GUESSWORK OUT OF  
LICENSE RESEARCH, FILING,  
ASSESSMENT, AND VERIFICATION.**

## PROFESSIONALISM AND ACCOUNTABILITY AT THE CORE

The core values of LicenseLogix shine through in every interaction you have with our team. Valuing professionalism and accountability above all else, LicenseLogix manages your business license compliance with unparalleled attention, care, and expertise. Our insight, teamwork, and technology streamline a demanding but mandatory process while producing a customized and superior client experience.

## PRODUCTS & SERVICES

Streamlined Business Licensing

# LICENSE COMPLIANCE

Full license compliance entails ongoing management of your renewable licenses as well as transparent tracking of your entire license portfolio. Our license renewal filing service combined with our secure web-based Client License Information Center (CLiC) keep you in full compliance.

The LicenseLogix Renewals department fully maintains license portfolios of all sizes—from under ten to over 10,000 licenses. The combination of our customized renewals workflow and system safeguards embedded in our technology ensures continuity of licensure at all times. Your business depends on it.

CLiC provides transparency into our renewals filing process and lets you quickly access your entire license portfolio from any device! With CLiC you can:

- **View and sort all business licenses from the entity or jurisdictional level**
- **Stay on top of status updates and receive notifications of upcoming expiration dates**
- **Generate Excel and PDF reports to quickly preserve data for bookkeeping and budgeting**
- **Upload and manage corporate documents and any business related information**

Call or email [info@licenselogix.com](mailto:info@licenselogix.com) today to schedule your free consultation!

## LICENSE RESEARCH

What licenses will my new business need? How do I get licensed in new locations as I expand my business? These are some of the questions that our license research service answers. Our expert team navigates the complicated and ever-changing regulatory requirements for you. We research and identify the applications, instructions, filing nuances, and fees for you, resulting in a research report customized to your business.

## LICENSE FILINGS

Simplified license filing is here! Our experts file thousands of business licenses a month on behalf of our clients. We accurately prepare and submit those application forms to the licensing authorities and proactively communicate with the licensing authorities to ensure faster results.

## LICENSE ASSESSMENT

Maintaining full license compliance in all jurisdictions often requires a deep dive into the details. Our comprehensive license assessment service entails a full audit of your current license portfolio—we research all required federal, state, county, and municipal licenses relevant to your business; identify any gaps or areas of over licensure; and create an optimized roadmap to full compliance. Clean slate: check!

## LICENSE VERIFICATION

Operating your business without proper licensure can be damaging to your reputation and your bottom line! LicenseLogix verifies the status of your current licenses, confirming that they are active and in good standing. Our license verification service also ensures continued compliance by identifying and confirming accurate renewal dates.
